

Lasting impressions with reliable services

Choose from our comprehensive set of services

➔ Installation & Commissioning

WIKA's field installation experts go to the customers' sites to provide tailored solutions that result in a short downtime. We ensure process safety with our list of installations that include multipoint thermometers in reactors, thermocouples in furnaces and level measurement instrumentation.

➔ Maintenance & Repair

You can count on WIKA to do repairs – from diaphragm seal systems up to highly accurate calibration instruments. We support you in optimising your operational processes. Benefit from our know-how for solutions that are tailored to your needs.

➔ Analysis & Support

WIKA offers reliable consultation services, both analytical and technical, for a wide range of industries. Our qualified service technicians support in solving problems and ensure that your measuring instrument is back in working order in the shortest possible time.

➔ Calibration

WIKA provides its calibration services on-site at your premises or in our laboratory, for WIKA as well as other instruments. Pressure, temperature, mass, electrical, force, dimensional, flow and torque are some of the other calibrations and adjustments that we provide on shortest delivery times.

➔ Inspection & Testing

You can rely on WIKA for on-site verification and function testing that is non-invasive and non-destructive. Our expertise also includes in-situ verifications of multipoint thermometers.
